

### Interactive figure 1: Gross morphology of the anchovy brain

Surface rendering of olfactory nerves, telencephalon, diencephalon, left and right optic nerves, mesencephalon, tectum opticum, metencephalon, cerebellum, myelencephalon and ventricles (blood vessels not included).

The **interactive 3D model** can be activated by clicking onto the figure (Adobe Reader Version 7 or higher). Rotate: drag + press left mouse button; shift: same action + ctrl; zoom: use mouse wheel (or change default action for left mouse button). Use model tree for selecting components, switch between prefab views or change surface visualization (e.g. lighting, render mode, transparency, crop etc.). Deactivate 3D content via right mouse click (context menu).
